A dose-response
low-overhead band (<15%)
fan-in W (cells=1)
cell count C (W=8)
SSI token overhead vs vanilla (%)
swept parameter: fan-in W, or cell count C
B what an abort actually costs
SSI session
null: a retry costs one generation (72 tok)
measured: 78 tok/abort = 1.074× [1.05,1.10]
extra tokens vs paired vanilla run
aborts in the session (count)
